Consultation

A detailed assessment of the human remains was made by the Arkansas Archeological Survey professional staff in consultation with representatives of the Tunica-Biloxi Indian Tribe. These human remains were inventoried and documented by Physical Anthropologists at the University of Arkansas.

History and description of the remains

In 1983, human remains representing, at minimum, two individuals were recovered from site 3DR144 in Drew County, AR. No known individuals were identified. No associated funerary objects were present.

This notice includes a variety of terms commonly used in discussions of Arkansas archeology and the historical trajectories that gave rise to specific Native American communities identified in the historical record. Based on the archeological context for these sites and what is presently known about the peoples who pre-date the historic Tunica people and occupied the sites listed in this notice, the Arkansas Archeological Survey has determined the human remains listed

in this notice are culturally affiliated with the Tunica-Biloxi Indian Tribe.

Determinations made by the Arkansas Archeological Survey

Officials of the Arkansas Archeological Survey have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 2 individuals of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Tunica-Biloxi Indian Tribe.
